OTHER:

We have lived in Big Lake for six years. USCG retiree and lived in Alaska for 41 years. I have a BS Degree, an MBA; currently Captain Boeing 747s for a major international air cargo airline.

Coast Guard; negotiator or steward serving my fellow pilots; to the state legislature, my callings all seem to be to serve my community or co-workers. We are blessed with adult children as well as many grandkids. I'm proud to be an American and an Alaskan.

STATEMENT:

I'm ethical, engaged, and invested in making a difference in anything I do. This position is about service not economic gain or power. I believe the direction of State government needs to change. Alaska needs citizen statesmen and bold leadership to reverse our race to the bottom. I believe that life begins at conception and I believe that the second amendment is not about hunting. I believe in health freedoms and abhor mandates. I believe in smaller government and larger the liberty. I will follow the constitution and the laws of the USA and the State of Alaska.

The time to shrug our shoulders or wink and nod at difficult issues such as the binding caucus, the PFD, or revenue and resource development, is finished. No longer can a legislator sit back and provide intellectually dishonest answers and platitudes to constituents or voters. No longer will the citizens of Alaska put up with the destruction of our state by a spend thrift legislature or governor.

It is time for a change!

A legislator must be able to use the smart phone, and any social media available, to his or her constituents, to communicate with them over their concerns as well as provide information on the various bills and issues in our State. I will answer my phone, my emails, and will provide periodic newsletters to my constituents and to Alaskan

We can run from our problems or we can run towards them with ideas for solutions, leadership, and service.
